DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed 09 March 2010 amends claims 1, 9, 12, 14, and 32.

Applicant's amendment has been fully considered and entered.

Response to Arguments

2. Applicant's arguments with respect to the claim amendments have been fully considered and are persuasive. The previous rejections have been withdrawn.

Allowable Subject Matter

3. Claims 1-7, 9-12, 14, 15, and 31-35 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose or make obvious the claimed restricted memory access wherein first and second page table maps are maintained for use in isolated execution mode and normal execution mode respectively. Access to an isolated area of memory is restricted to bus cycles performed in isolated execution mode wherein the isolated area of memory has an associated audit log that includes hash values for information that has been successfully loaded into the isolated area of memory. The page tables are swapped responsive to a change in execution mode. Determining if an event is an event handled in isolated execution mode, and selecting the first page table map if the event is identified as an isolated execution mode event. Handling the event using the selected table map.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
